**HOW TO INTEGRATE AI
IN YOUR WORKFLOW?
OR
NO DATA FOR EXECUTION?**

that is why

KODEGIRI EXISTS TO HELP YOU

Can't find one?

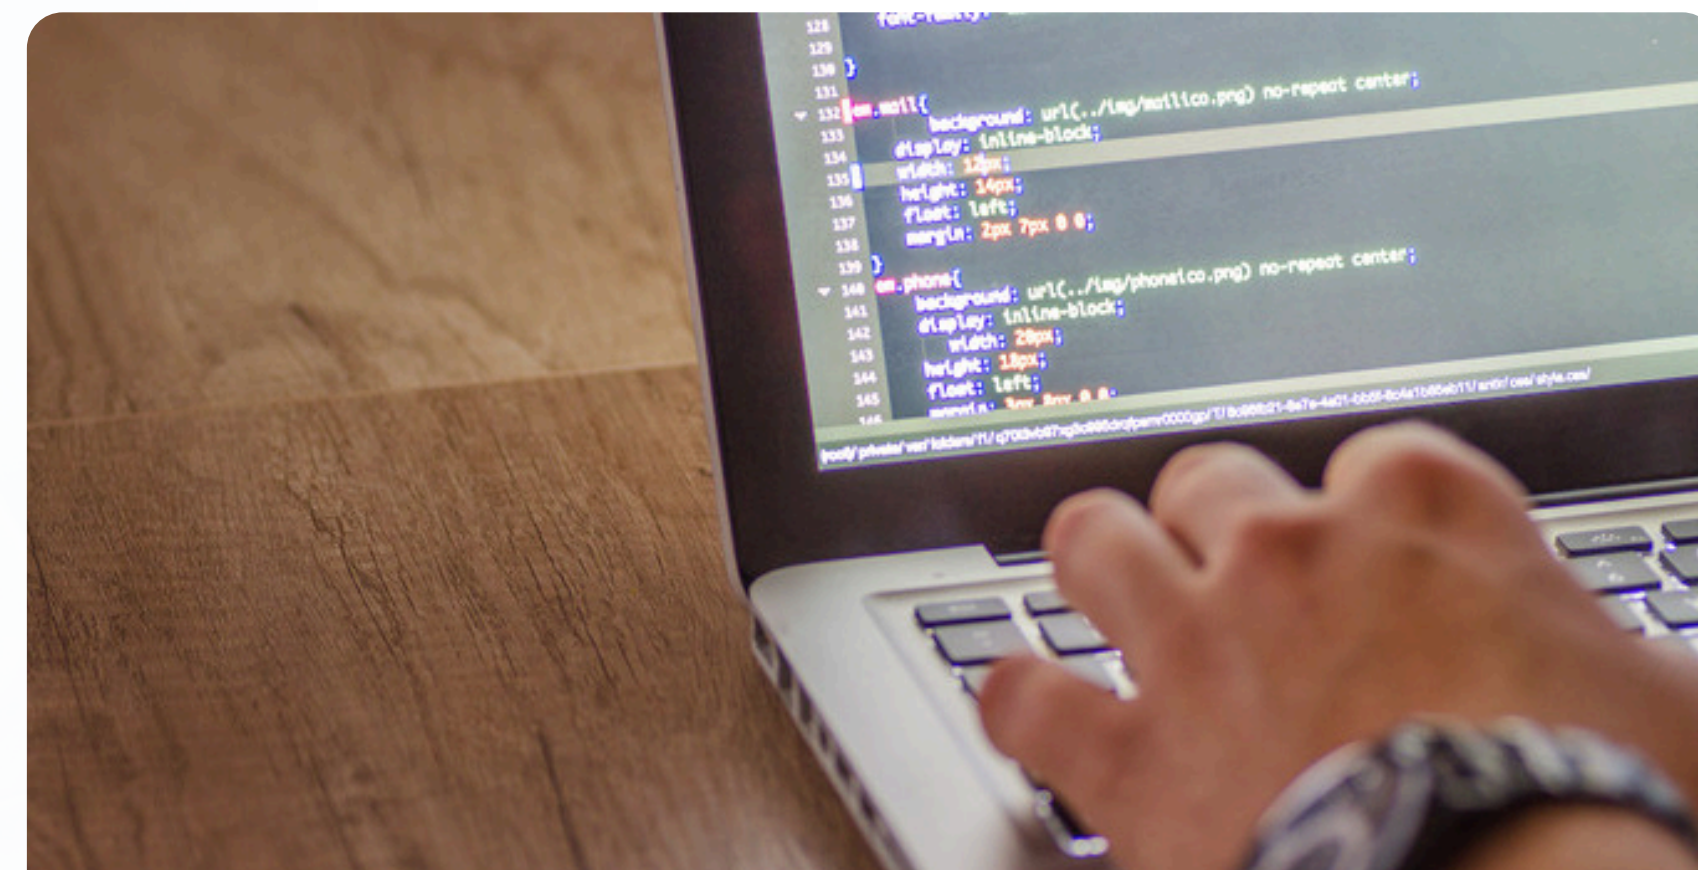

**AN AI-RESEARCH & TECHNOLOGY
CONSULTANT & SERVICE**

Why Consider Us?

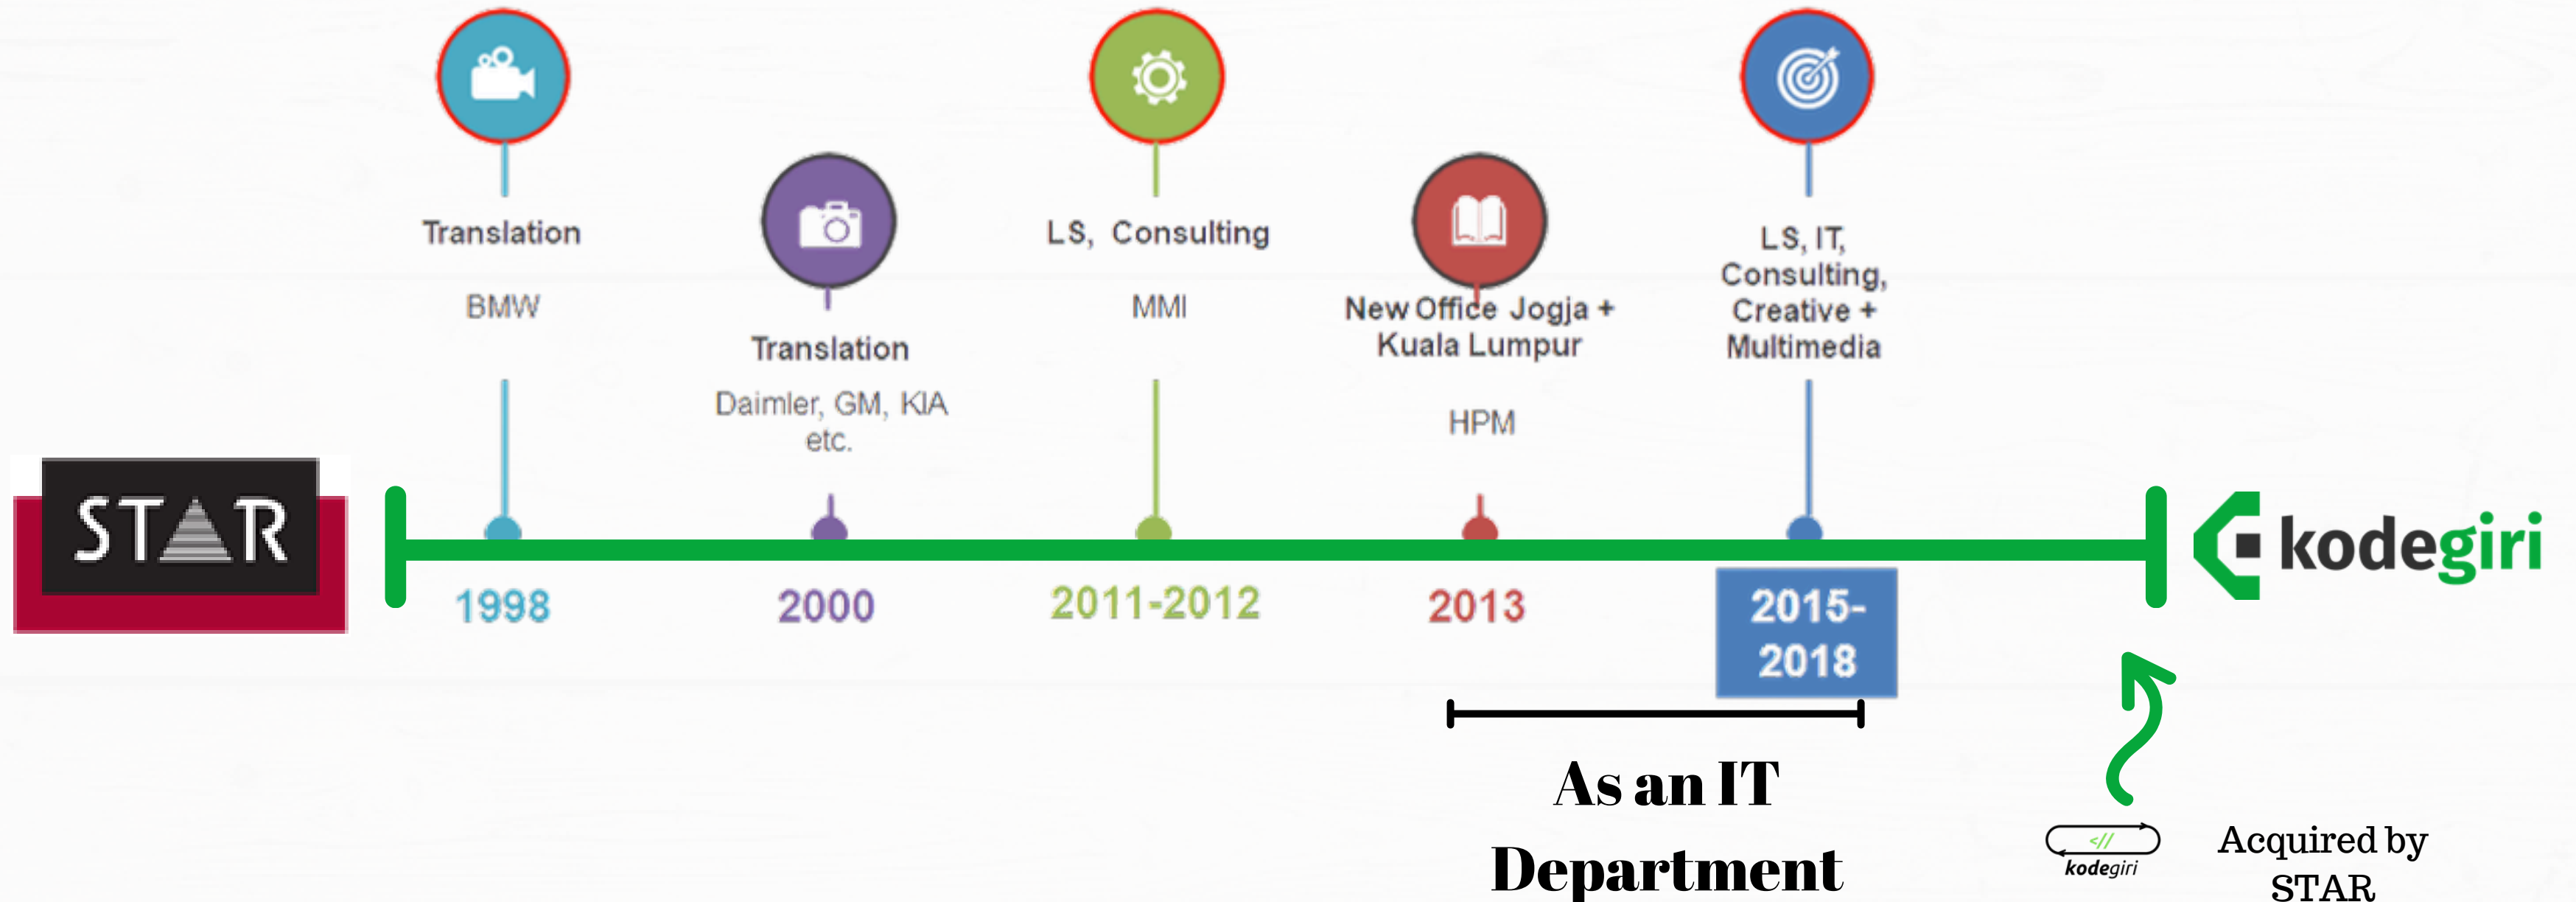

About Kodegiri

- **Kodegiri is an AI-research technology company helping businesses unlock clarity before execution.** We eliminate assumptions from marketing and product innovation by providing data-driven solutions, fast prototypes, and tech implementation support.
- We research for you, grow with you."
- Founded by community spirit during the pandemic, Kodegiri has now evolved into one of Southeast Asia's most trusted partners in Marketing Technology, Research-as-a-Service (RaaS), and AI Integration.
- Inheriting **customer excellence** from STAR group, we became a reliable AI Integration & Digital Campaign for **world-class brands** (Rolling SA (Switzerland), Nusa LLC (USA), Eterna Indonesia, Gramedia, Gamatechno, STAR Indonesia Group, Accelbytes, Software Seni, M-Cashier International (Kenya), Ifabula, BPJS Ketenagakerjaan and many more.)

COMBINING TECHNOLOGY
AND HUMANISM

Our History

- From Founder's **Freelance** Job
- To Provide Opportunities for those who had been fired during the Pandemic

DATA & RESEARCH

Stop Deciding using Magic and Assumption

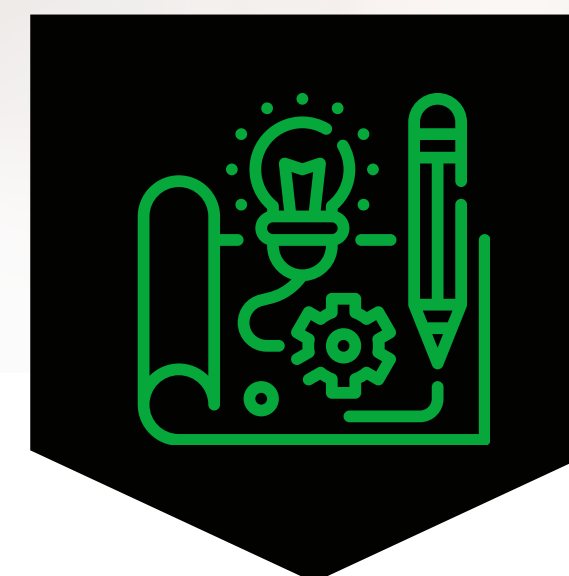

STAR'S AI-MARKETING RESEARCH & DATA MANAGEMENT (MADAM)

Say no to a marketing strategy with no data & revenue target! MADAM is STAR's standardized RESEARCH to help you analyze your target market to line your marketing and sales strategy.

RAAS: RESEARCH-AS-A-SERVICE

Developing Software without any data and certainty is long gone. Make sure any development will start with exact Problem Statement, Data, and Solution to maximise your profit.

AI-DRIVEN PROOF OF CONCEPT (POC)

Not sure to start any experimental project? create a Prototype using AI-powered development that simply works and make sure that you can accelerate it further.

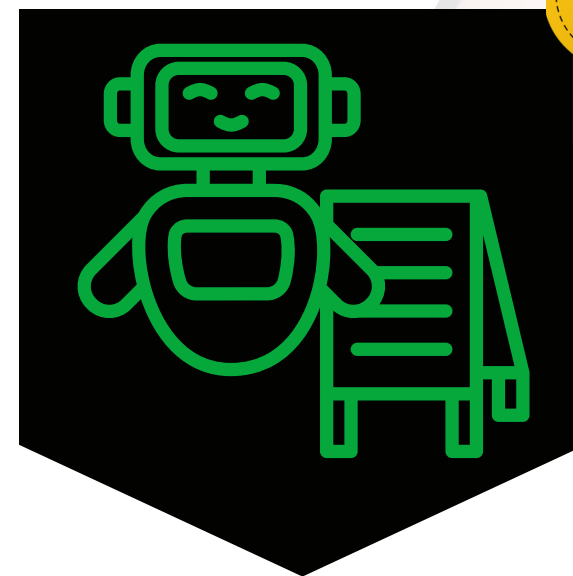

AI-driven TECHNOLOGY

Artificial Intelligence Integration for Your Business

TECH STACK

VALUES

TRANSPARANCY

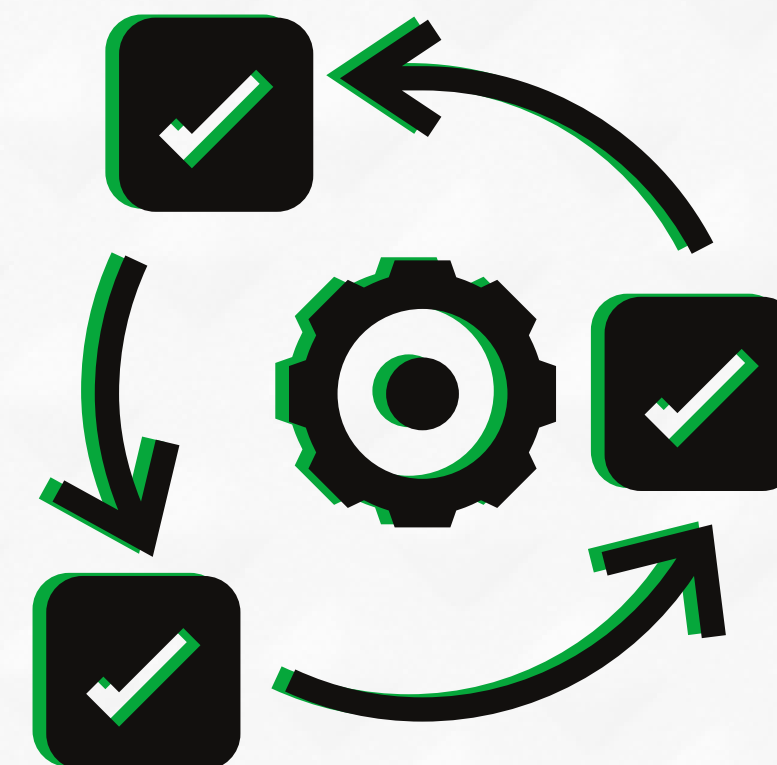

No secrecy!
We uncover all conditions by data, any cost, challenge, and effort to help your company grow will be shown without any sugar-coating.

COMMUNITY-BASED

You'll get a dedicated team to make sure everything you request will be done. They feel like your own "internal team" rather than vendors.

As Humane as Possible

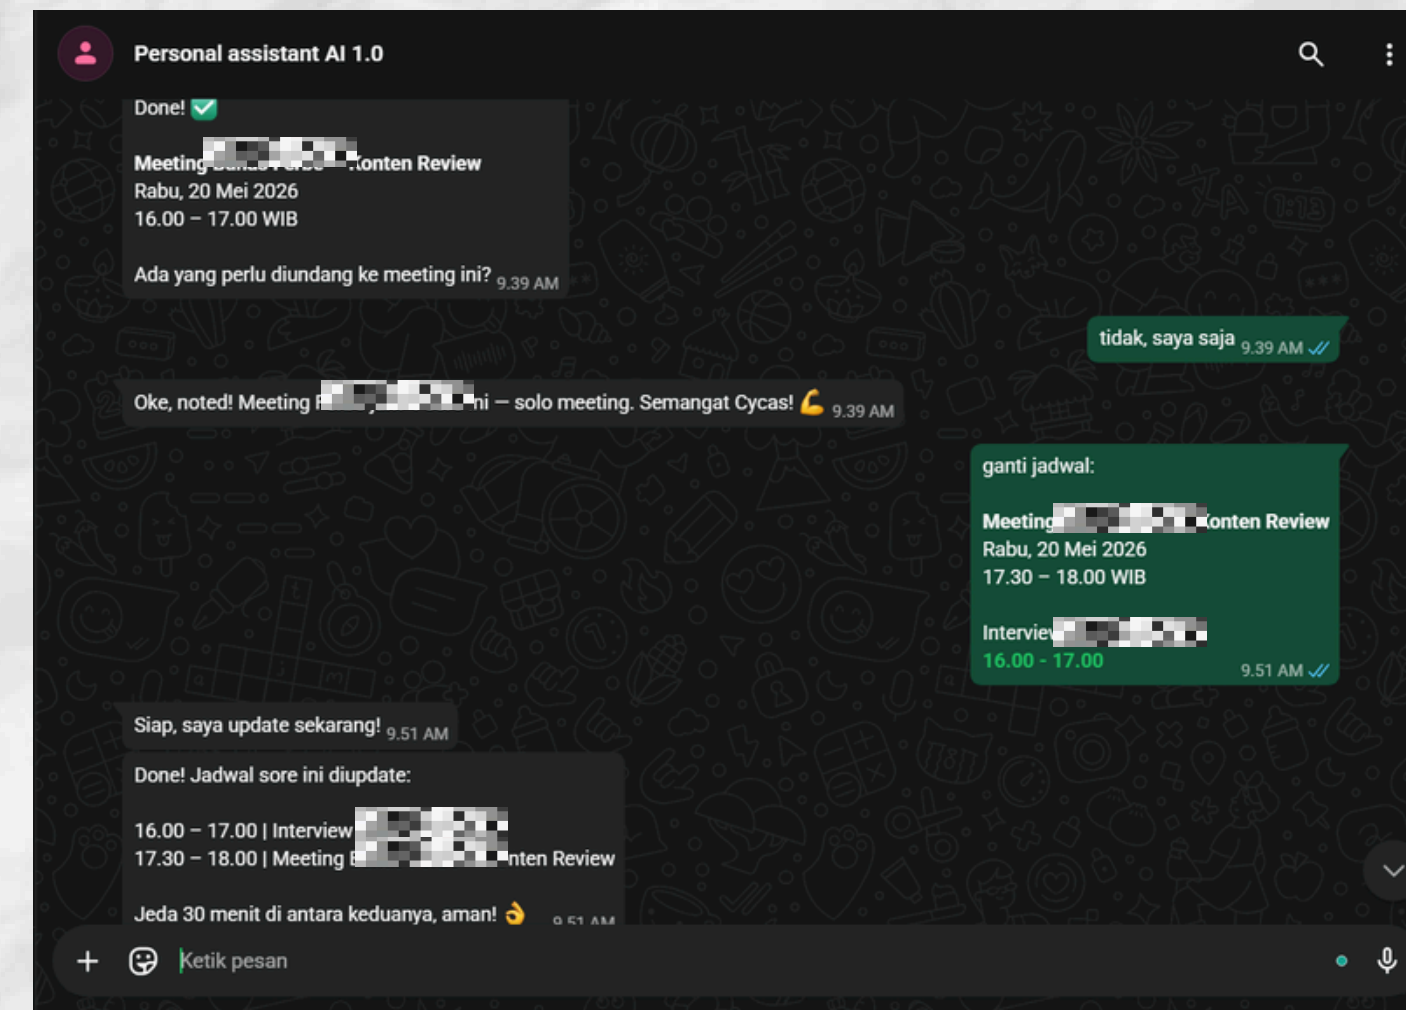

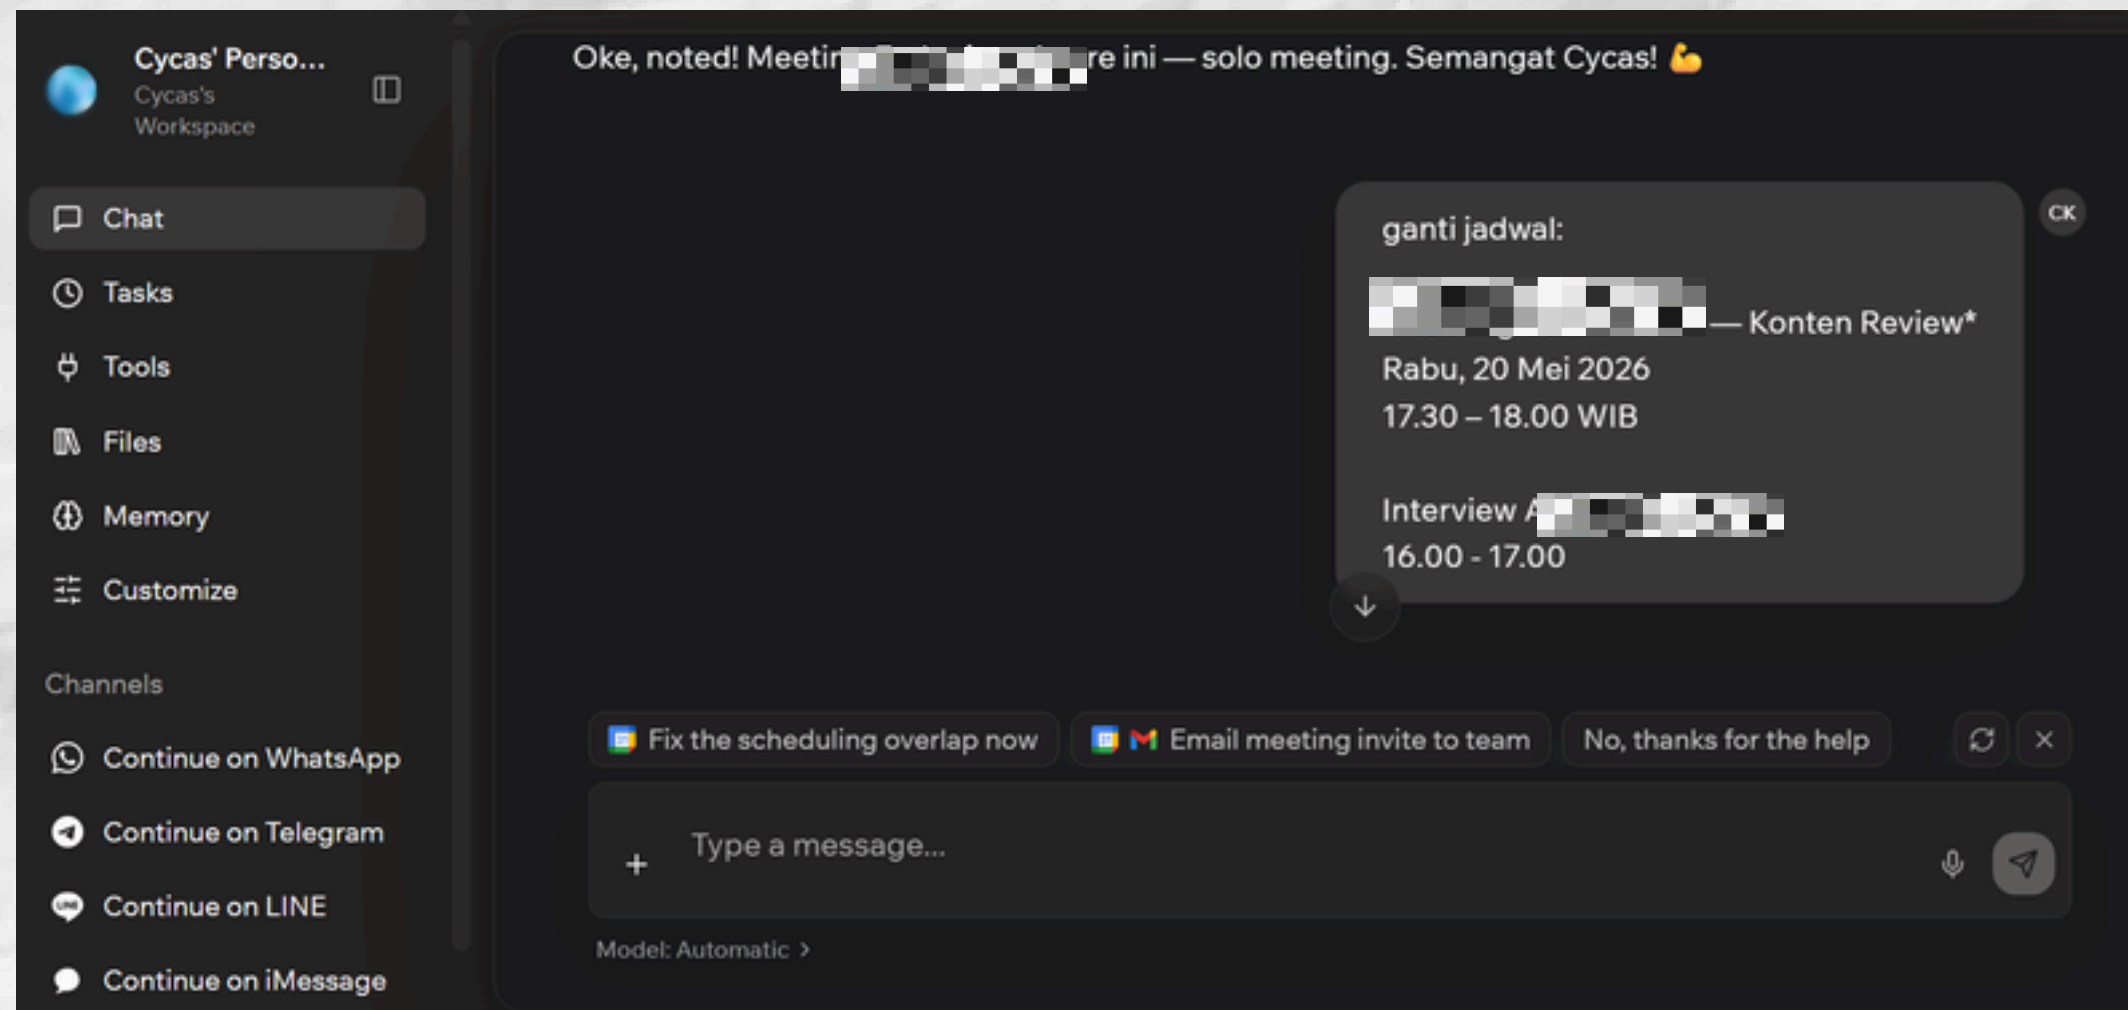

DATA-DRIVEN

When working on projects, we are always using data, ensuring that the results align with existing needs.

AMI

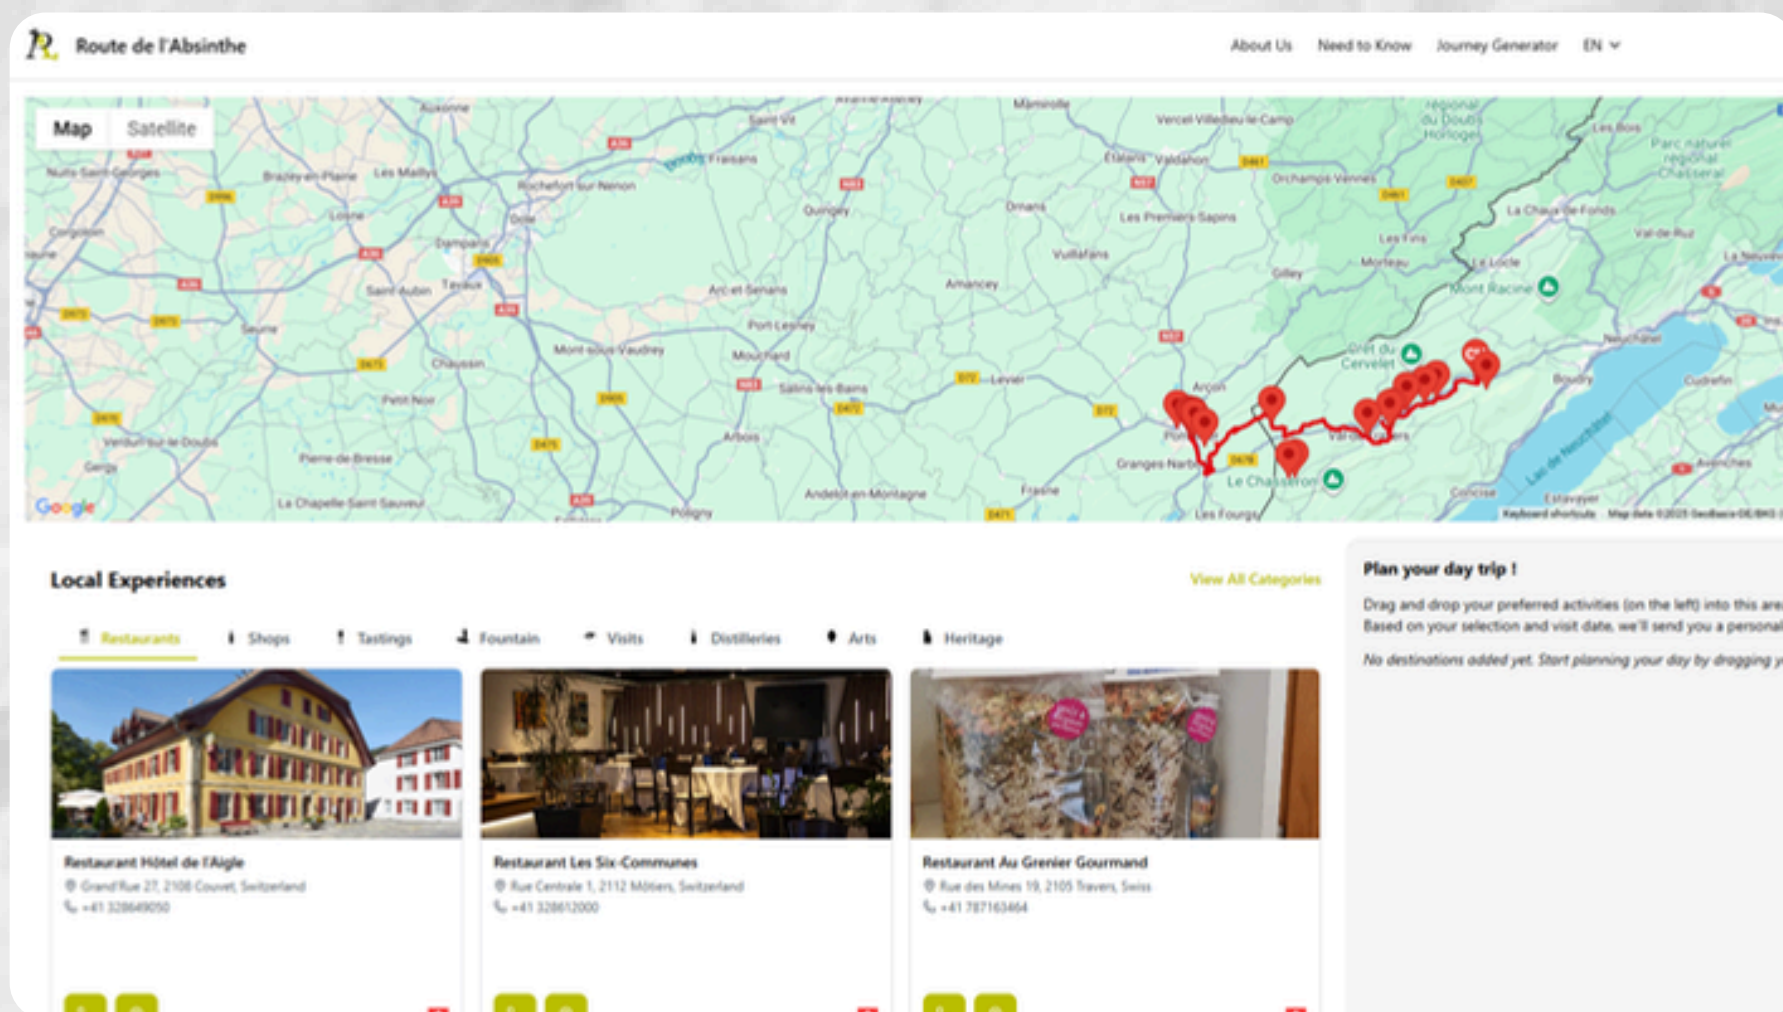

Agentic Management Intelligence

AI Agent to Leverage your professional life

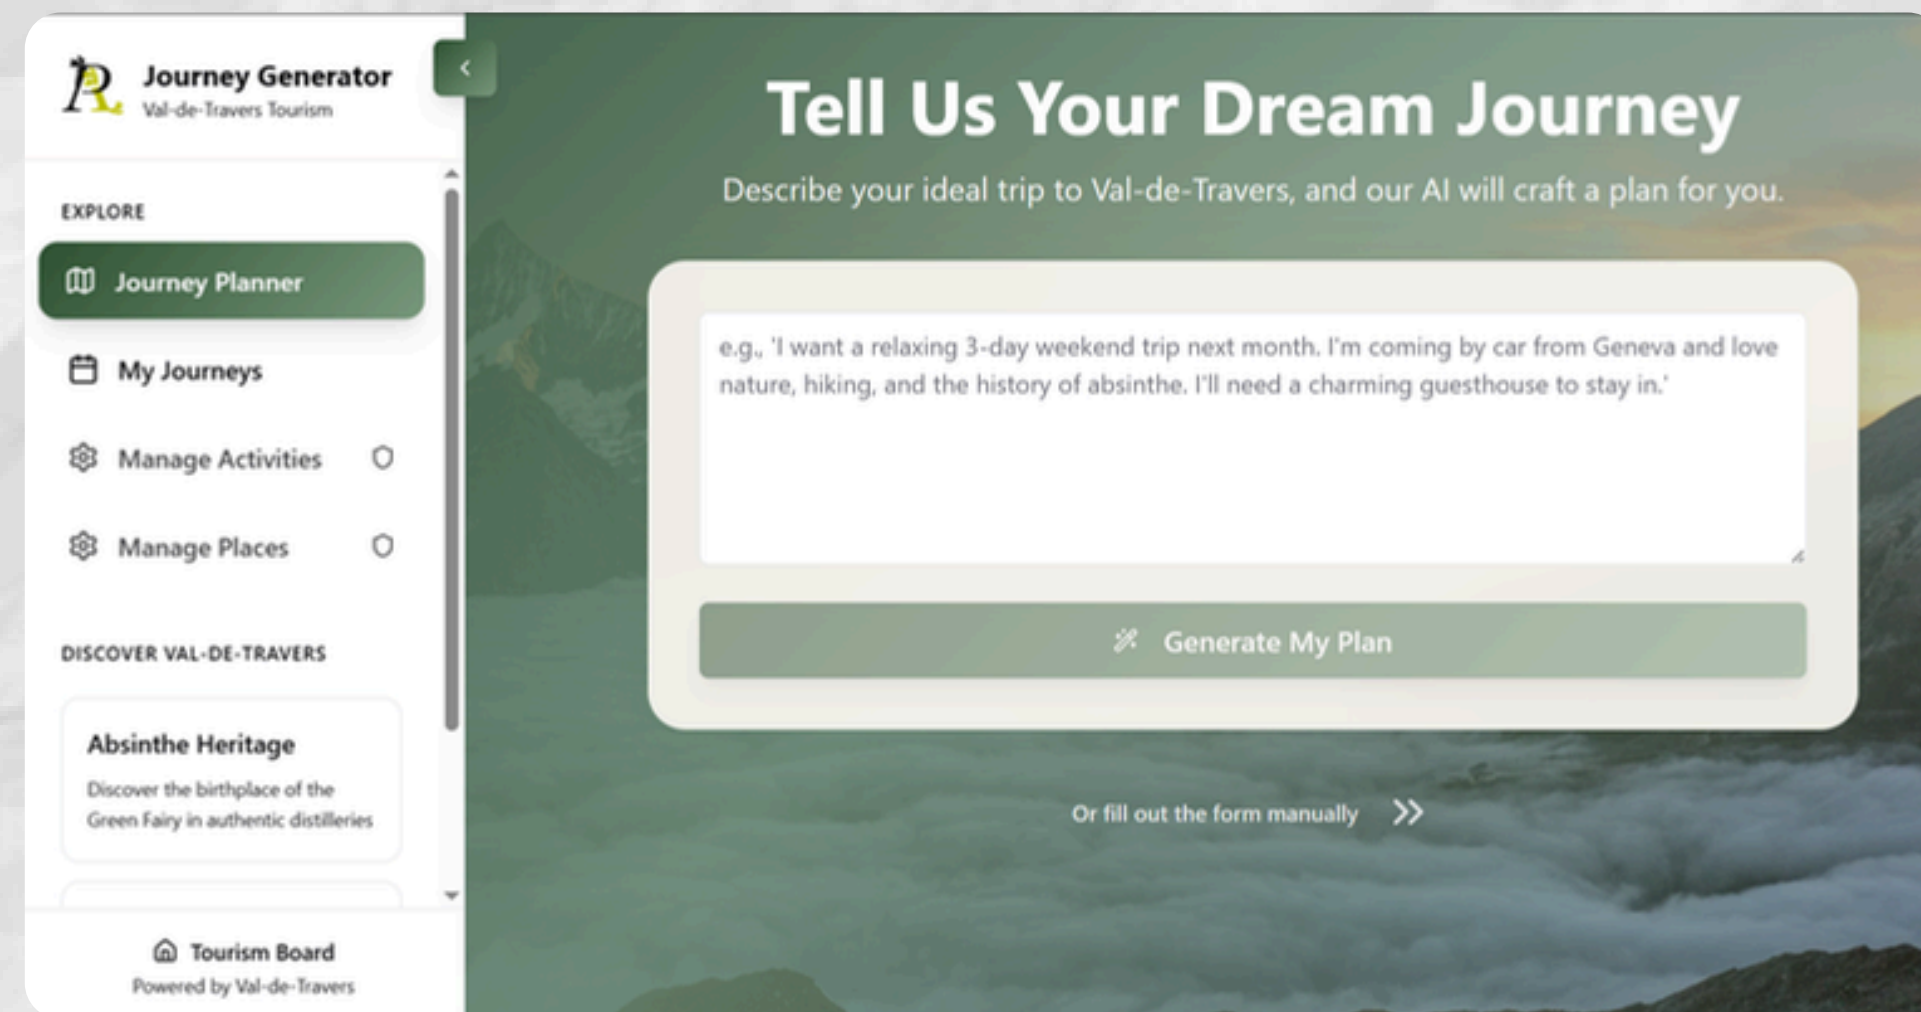

Route de l'absinthe

Website with AI Agent Journey Generator

The screenshot shows the website's home page. At the top, there is a navigation bar with 'About Us', 'Need to Know', 'Journey Generator', and 'EN'. Below this is a large map of the Val-de-Travers region with a red route highlighted. Under the map, there are sections for 'Local Experiences' with filters for Restaurants, Shops, Tastings, Fountains, Visits, Distilleries, Arts, and Heritage. Three restaurant cards are visible: 'Restaurant Hôtel de l'Aigle', 'Restaurant Les Six-Communes', and 'Restaurant Au Grenier Gourmand'. A 'Plan your day trip!' section is also present, with instructions to drag and drop activities.

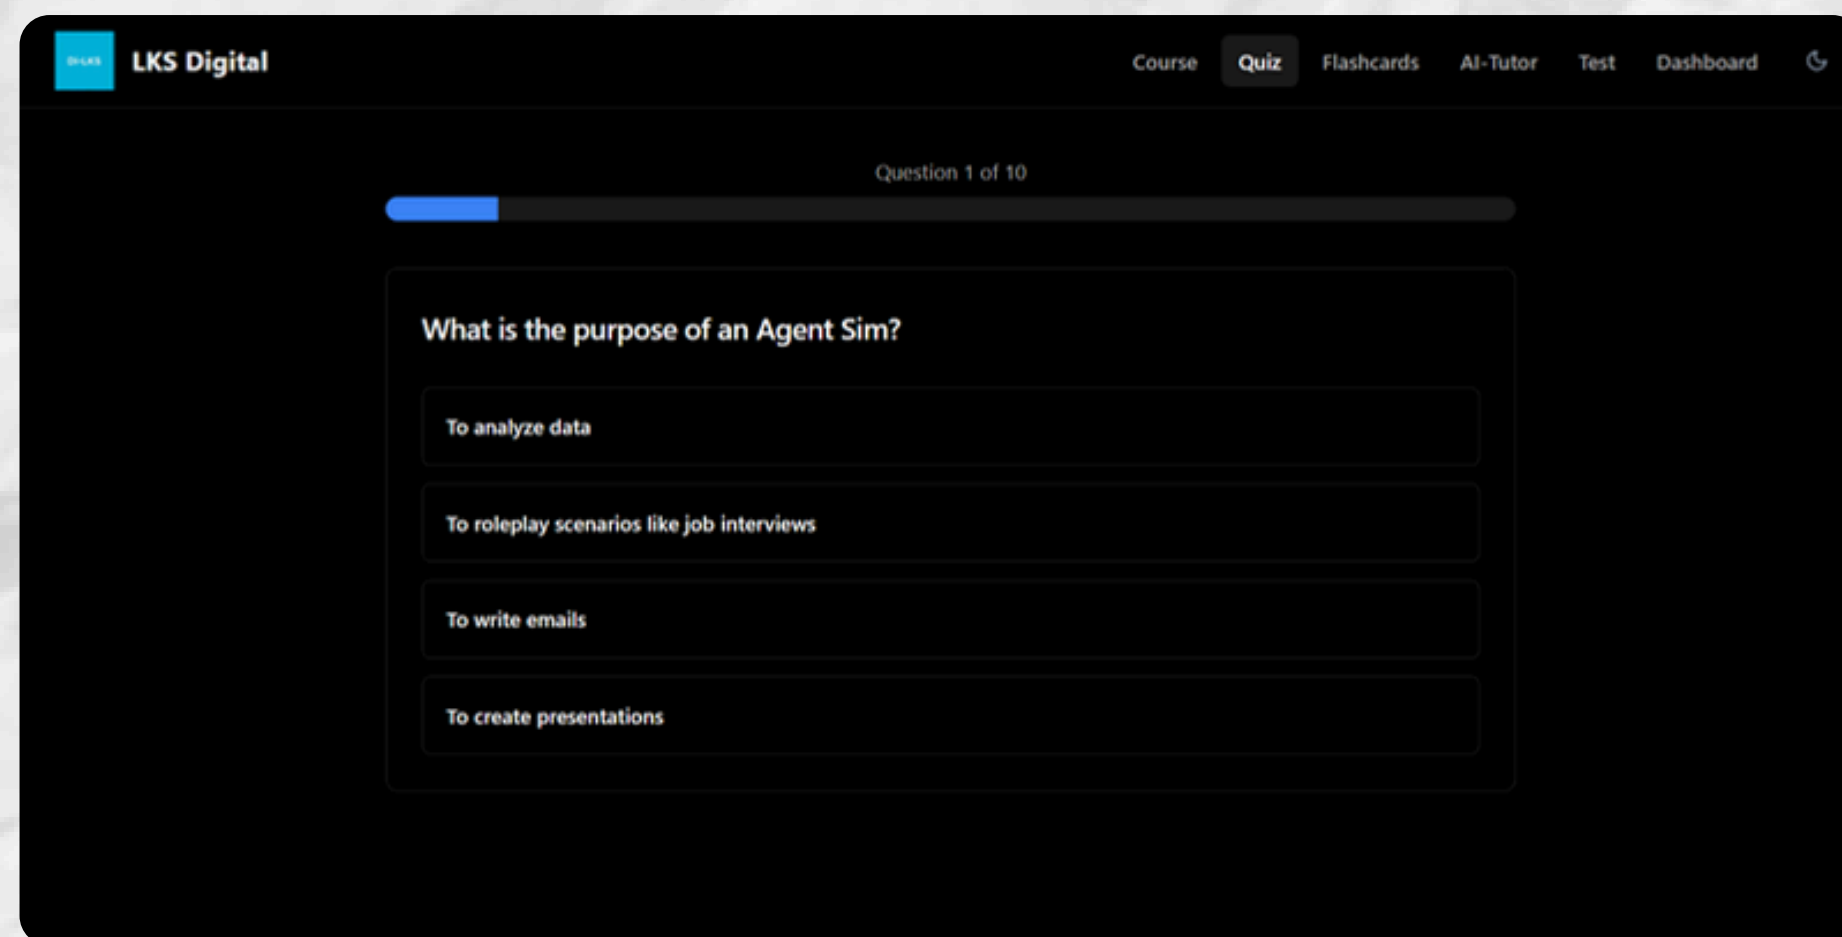

The screenshot shows the 'Journey Generator' interface. It features a sidebar with navigation options: 'EXPLORE' (Journey Planner, My Journeys, Manage Activities, Manage Places) and 'DISCOVER VAL-DE-TRAVERS' (Absinthe Heritage, Tourism Board). The main content area has a heading 'Tell Us Your Dream Journey' and a sub-heading 'Describe your ideal trip to Val-de-Travers, and our AI will craft a plan for you.' Below this is a text input field with an example: 'e.g., I want a relaxing 3-day weekend trip next month. I'm coming by car from Geneva and love nature, hiking, and the history of absinthe. I'll need a charming guesthouse to stay in.' A 'Generate My Plan' button is located below the input field. At the bottom, there is a link to 'Or fill out the form manually'.

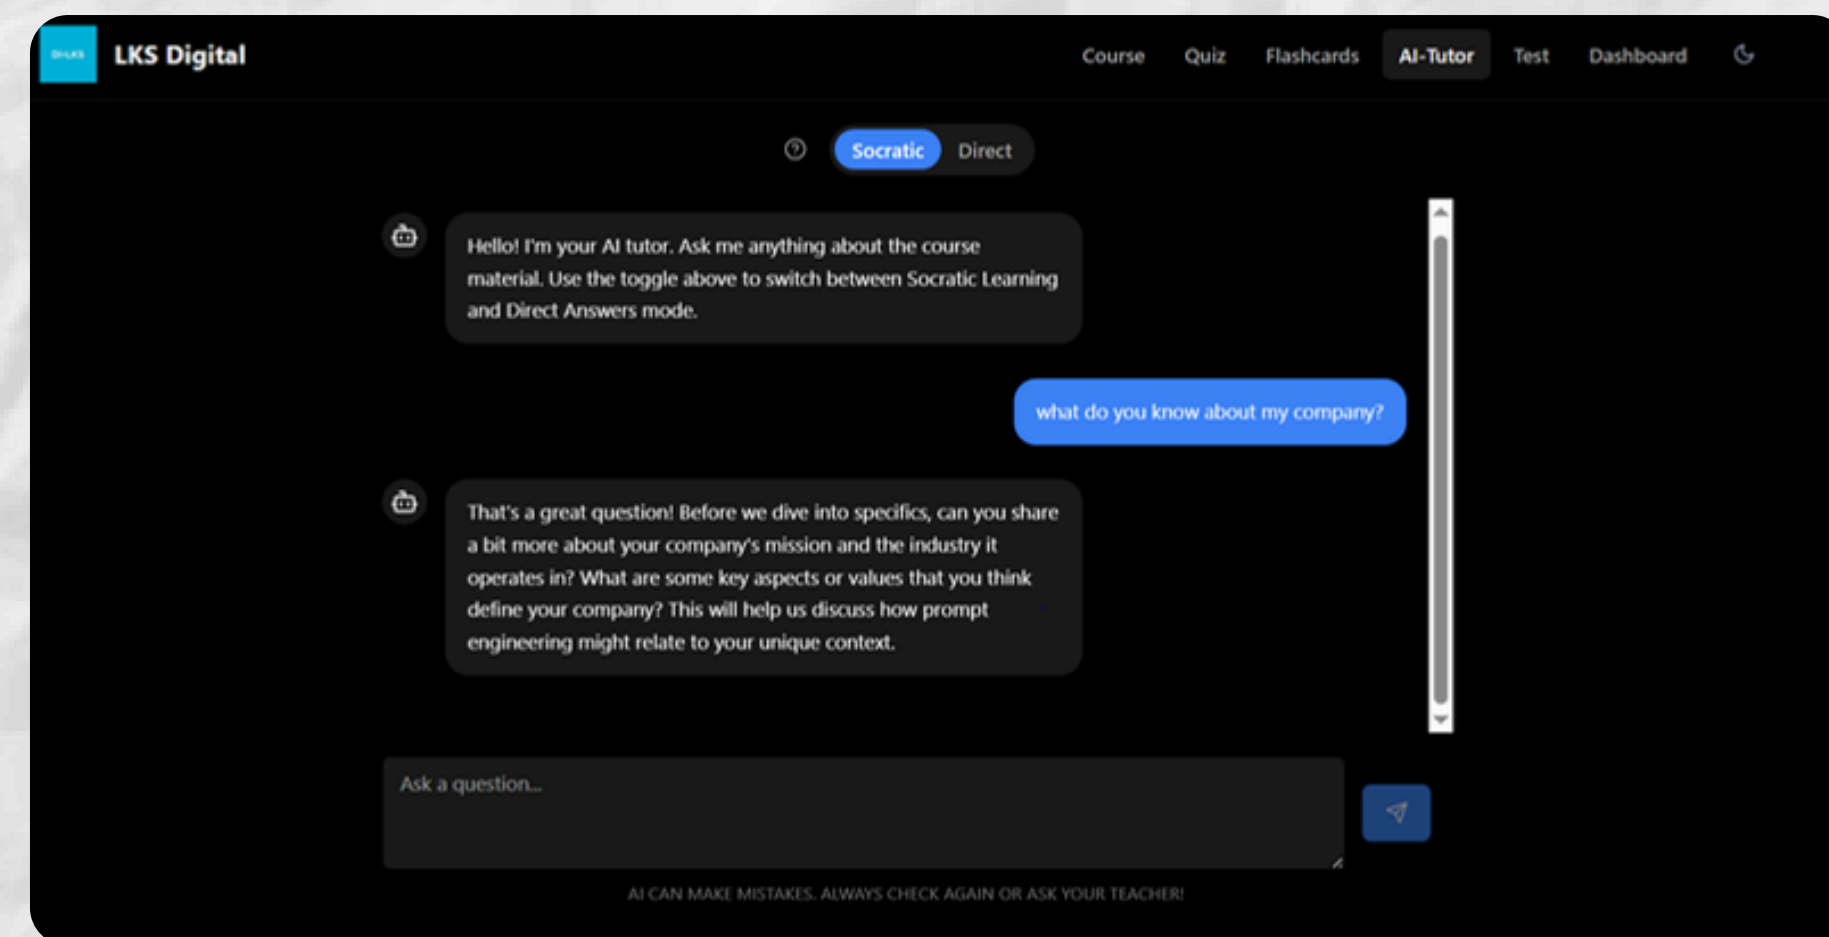

Di-LKS

LKS Digital

Self-Learning Module with AITTA: AI Teaching-Learning Assistant: In Collaboration with Kemristekdikti Indonesia

The screenshot shows the 'Quiz' section of the LKS Digital interface. At the top, there are navigation tabs: Course, Quiz, Flashcards, AI-Tutor, Test, and Dashboard. Below the tabs, it indicates 'Question 1 of 10'. The main content area displays a question: 'What is the purpose of an Agent Sim?'. Below the question, there are four radio button options: 'To analyze data', 'To roleplay scenarios like job interviews', 'To write emails', and 'To create presentations'.

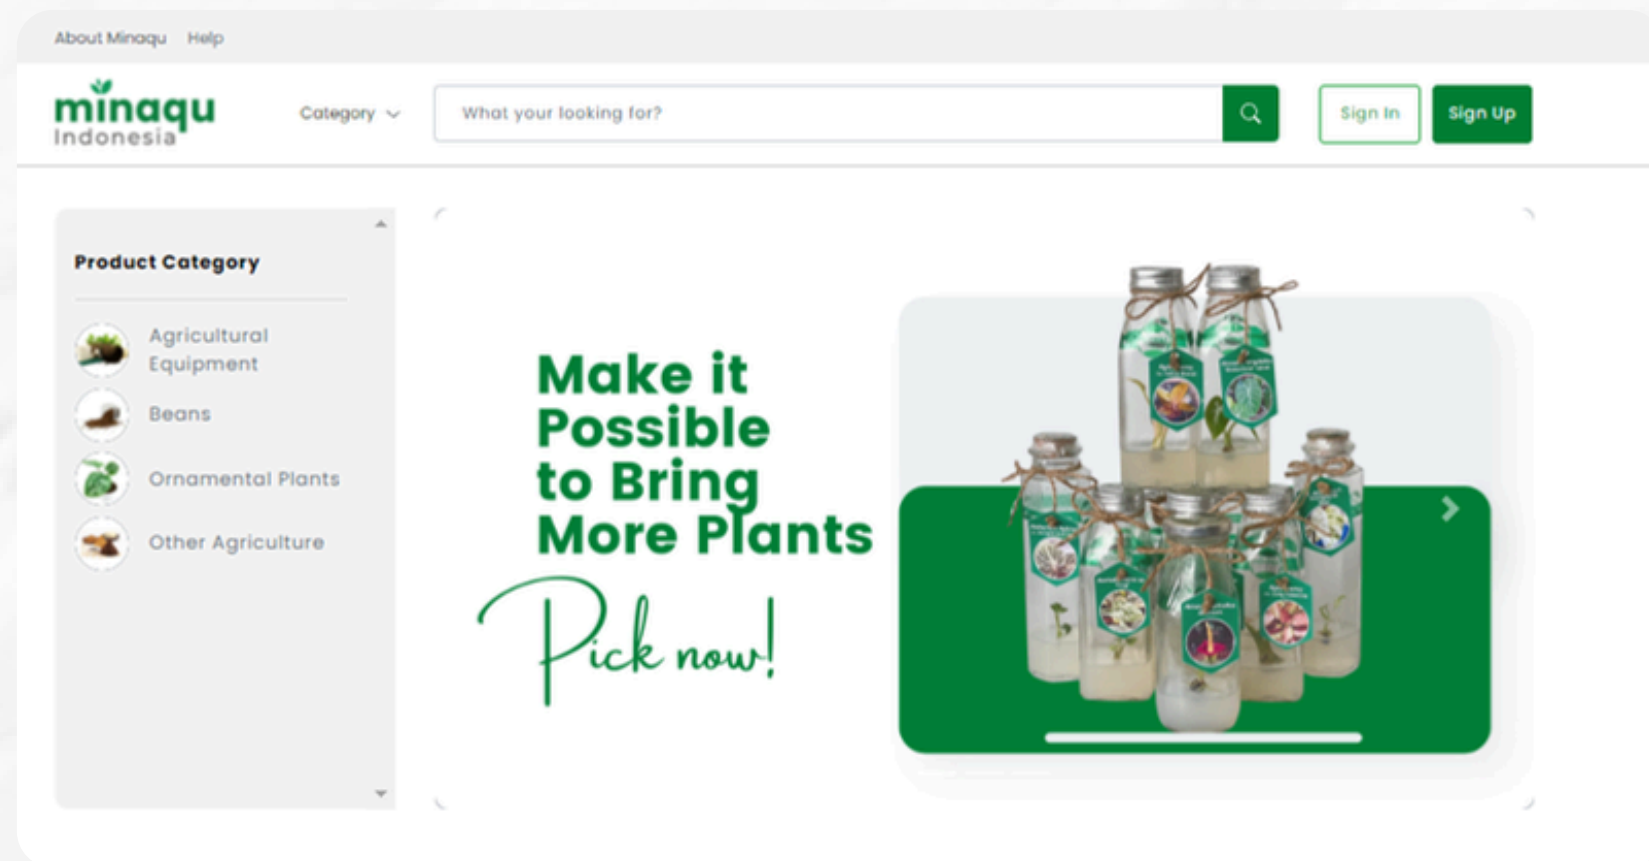

The screenshot shows the 'AI-Tutor' section of the LKS Digital interface. At the top, there are navigation tabs: Course, Quiz, Flashcards, AI-Tutor, Test, and Dashboard. Below the tabs, there is a toggle switch between 'Socratic' (selected) and 'Direct'. The main content area displays a chat conversation. The AI tutor's message says: 'Hello! I'm your AI tutor. Ask me anything about the course material. Use the toggle above to switch between Socratic Learning and Direct Answers mode.' The user's question is: 'what do you know about my company?'. The AI tutor's response is: 'That's a great question! Before we dive into specifics, can you share a bit more about your company's mission and the industry it operates in? What are some key aspects or values that you think define your company? This will help us discuss how prompt engineering might relate to your unique context.' At the bottom, there is an input field with the placeholder text 'Ask a question...' and a send button. A disclaimer at the bottom reads: 'AI CAN MAKE MISTAKES. ALWAYS CHECK AGAIN OR ASK YOUR TEACHER!'.
